Teller Camera Series

The **Remote Alert** Teller Cameras are designed for applications where high resolution close ups are required of individuals during transactions.

The cameras are mounted in aesthetically pleasing housings that can easily be mounted at payment windows, teller points, desks/counters or other locations where transactions or information exchange may take place.

Applications:

- Banking
- Retail
- Customer Services desks
- Car Rental
- Airline Security
- Licensing

Features:

- Blank Plate, FDIC or NCUA regulatory signage options.
- Desk Top Mounting
- 3.0mm Lens
- Tigershark WDR Sensor
- inVivid® Color Technology
- Ultra High 800 TVL
- Software Day/Night Function
- Min. Illumin. 0.01 Lux
- Wide Dynamic Range (WDR) 130db
- Backlight Compensation (BLC)
- Highlight Compensation (HLC)
- DEFOG
- Optical Dual Vari-Focal
- Digital Image Stabilization
- 3D DNR
- Sense Up
- Selectable Shutter Speeds
- ATW / AWC White Balance
- CVBS Analogue Video Output
- OSD Menu
- iCCTV™ compliant up the Coax (UTC) OSD
- Privacy Zones
- Motion Detection
- Optional UTC (Up the Coax) OSD Programmer

D1 / 960H DVR Series

The **Remote Alert** DVR600RT series D1/960H Real Time DVRs are offered with 4, 8 or 16 analogue inputs, a selection of hard disk sizes and a range of features to fulfill the requirements of most CCTV installations. The DVR supports audio on each channel along with the ability to support a range of different telemetry protocols. In addition, the DVR offers streaming video to a web browser, a range of mobile devices and for more complex management requirements, Central Management Software to support the remote viewing and configuration of multiple sites from one or more control centers.

Features

- 4, 8 or 16 channel Video and Audio recording
- WD1, WHD1, WCIF, D1, HD1 & CIF recording
- H.264 Video Compression
- ADPCM Audio Compression
- Dual Stream
- Mobile Device Support
- Supports up to 2 internal SATA HDD*
- Scheduled recording
- Motion and Alarm Triggered Recording
- Per Channel Configuration
- Pre-Alarm Recording
- On Screen Motion Detection Indicator
- GUI
- VGA, HDMI & Composite Video Monitor Outputs

CS
Lens

ED-Asph
Glass

2.8~12
F1.2 V/F

The **Remote Alert** Vari-Focal lenses provide high resolution images and increased sensitivity by the use of ED (Extra-ordinary low Dispersion) glass elements. The inLS2812DN will deliver crisp color images in the daylight. Under low light conditions experienced at night, the IR corrective features of the lens will ensure that equally high levels of performance are delivered.

Features:

- DC Auto Iris
- Aspherical Optical Design
- Fast F1.2 aperture
- IR Corrected
- ED Glass Optics
- Made in Japan
- CS Mount

Specifications	
Type	AI Varifocal
Focal Length	2.8-12mm
F-Stop	F1.2
Image Format	1/3" (4.8 x 3.6mm)
Mount	CS
Operating Range	Iris: F1.2-F360
	Focus: 0.2m ~ Infinity
Control	Manual Focus/Zoom
Field of View (1/3")	D: 124.9° ~ 29.7°
	H: 98.5° ~ 23.8°
	V: 73.0° ~ 17.8°
Field of View (1/4")	D: 92.0° ~ 22.3°
	H: 73.0° ~ 17.8°
	V: 54.3° ~ 13.4°
Dimensions	35mm x 47.9mm x 53.3mm

inM419

Premium Grade LED (Backlit) CCTV monitors

The **inM419** monitors utilise LED backlighting to give even, consistent illumination, long life and 40% lower power consumption than CCFL LCD monitors, to help meet green targets.

The monitors are designed to provide support for high resolution analogue cameras and use 4:3 aspect ratio panels, making them the perfect match for traditional analogue based CCTV systems without the need for image re-scaling. They are equally at home as a display unit for digital video recorders or computers.

The monitors are equipped with multiple input standards, loop through video and audio connectors and offer premium grade features to ensure that optimum quality images are displayed in any application.

Features:

- 19" Active Matrix Display
- Wide Viewing Angle
- 1000:1 Contrast Ratio
- 10,000:1 Dynamic Contrast Ratio
- 4:3 Aspect Ratio
- VGA/SVGA/XGA/SXGA modes supported
- 5ms response time
- 3D Comb Filter
- 3D De-Interlace
- Digital Noise Reduction
- Fast Switching Time
- 1x BNC Input
- 1x BNC Output
- 1x VGA Input
- 2x HDMI Input
- 1x PC Audio Input
- 2x RCA Audio input
- Tilting Desk Stand
- 75x75mm VESA Mounting Holes
- Low Power Consumption

The **Remote Alert Tower Cameras** are designed for applications where high resolution close ups are required of individuals during transactions.

Cameras are mounted in aesthetically pleasing housings that can easily be mounted at payment windows, teller points, or other locations where transactions may take place.

Applications:

- Banking
- Retail
- Immigration Control
- Car Rental
- Airline Security
- Licensing

With its advanced features, the 2MP camera allows full command and control of video parameters such as resolution, bit rate and frame rate. Offering D-WDR performance combined with 3D Digital noise reduction, this compact camera will produce high quality video in the varying light conditions experienced in modern installations. The small footprint of the camera allows versatility for placement and mounting. Capture full facial views of the person as they walk up to the counter/desk or as they drive up to the service window. Get the quality image you need with Remote ALert's HD-IP Tower camera.

The **Remote Alert IP ATM Camera Kit** includes our Tigershark WDR camera and our single channel encoder which is a powerful, compact video server platform featuring advanced video encoding capabilities. With its advanced features, the encoder allows full command and control of video parameters such as resolution, bit rate, frame rate along with PTZ control. This unit supports both ONVIF (Profile S) and PSIA (V1.0) standards. The Camera uses the latest in WDR performance chipsets . Offering ultra high 800TVL resolution, new Wide-D WDR performance combined with 3D Digital Noise Reduction, this compact camera will produce high quality video in the varying lighting conditions experienced in modern installations.

- Compact 36mm² footprint
- Thermal Management
- Ultra High 800 TVL
- Adaptable mounting brackets
- Software Day/Night Function
- Min. Illumin. 0.01 Lux

The **Remote Alert Special Application Camera** is the next generation in our line of compact indoor speciality cameras. The HD-IP network camera is based on advanced H.264 technology and supports full HD1080P (2MP) resolution.

With its advanced features, the 2MP camera allows full command and control of video parameters such as resolution, bit rate and frame rate. Offering D-WDR performance combined with 3D Digital noise reduction, this compact camera will produce high quality video in the varying light conditions experienced in modern installations. The small footprint of the camera allows versatility for placement and mounting. The versatile in31 is extremely compact and flexible enough to meet any installation requirements. Use in ATM's, Gaming, Fast food windows, many other speciality applications.

2 Megapixel Full HD IP Height Strip Camera

The Remote Alert HD-IP Height Strip is based on advanced H.264 technology and supports full HD1080P (2MP) resolution.

With its advanced features, the 2MP camera module allows full command and control of video parameters such as resolution, bit rate and frame rate. Offering full HD resolution, D-WDR combined with 3D Digital Noise Reduction, this camera will produce high quality video in the varying lighting conditions experienced in modern installations. The height strip allows you to capture a full facial view at eye level as the person exits the premises. Capture the quality image you need with Remote Alert's Height Strip Camera.

- Fits Standard Door Frames

Teller Camera Series

The **Remote Alert** Teller Cameras are designed for applications where high resolution close ups are required of individuals during transactions.

The cameras are mounted in aesthetically pleasing housings that can easily be mounted at payment windows, teller points, desks/counters or other locations where transactions or information exchange may take place.

Applications:

- Banking
- Retail
- Customer Services desks
-
- Car Rental
- Airline Security
- Licensing

Features:

- Blank Plate, FDIC or NCUA regulatory signage options.
- Desk Top Mounting
- 3.6mm Lens
- Capture Full Facial images
- 2.1 Mega Pixel Sensor
- Full HD 2MP Image
- Triple Stream (H.264/MJPEG/MPEG4)

Housing & Bracket Kits

The **Remote Alert** CHP series housing kits all include a side opening housing and the inCHPB feed through wall mount bracket. This indoor /outdoor housing offers security and environmental protection against the elements.

The side opening provides easy access for the installer with the option of factory installed 24VAC heater and blower help to maintain stable working temperatures while the feed-through mounting bracket simplifies the cable wiring into the housing.

The inCHP series is an ideal choice for your security applications requiring the housing of a traditional style “box” camera and lens..

Features:**inCHP15/inCHPHB**

- Indoor/Outdoor Housing
- Poly-Carbonate Construction
- Side Opening Lid
- 24VAC Powered*
- Thermostatic Heater and Blower*

inCHPB

- Die Cast Wall Mount
- Universal Knuckle Joint
- Cable Feed-Through for Housing

inADAC24PM

AC to DC Power Module

The **Remote Alert** inADAC24PM power module enables the use of the 12VDC in30 ATM camera on 24VAC powered systems. This allows the installer to use both 24VAC and 12VDC powered cameras on a common 24VAC power infrastructure. The power module is mounted to a back plate and has a removable shield to help prevent EMI/RFI issues within the ATM. This unit ships with a 36" power/video cable which allows mounting of the power module in back of the ATM.

Benefits:

- High reliability
- Stable output
- Polarity independent
- Noise suppression
- Lower "volt-drop" on extended cable runs.

Model:	inADAC24PM
Input Voltage	DC 9.6~15V / AC 19V~29V
Output Voltage (regulated)	12VDC @ 450mA
Ripple & Noise	150mVp-p Max
Input connection	Terminal Block
Output connection	10 Pin Molex for direct camera connection
Total Cable length	approx 92cm (36")
Dimensions (LxWxH)	63.5x50x26.5mm / 2.5 x 1.97 x 1 inch
Weight	52g / 2oz
Case type	Metal

AC to DC Power Converter

The **Remote Alert** inADAC series of power converters enable the use of 12VDC cameras on 24VAC power systems and allow the installer to use both 24VAC and 12VDC powered cameras on a common 24VAC power infrastructure.

24VAC power supplies have following benefits:

- Lower cost
- High reliability
- Polarity independent
- Lower “volt-drop” on extended cable runs.

A simple and effective solution for providing a regulated DC supply.

Model:	inADAC241A
Input Voltage	20V~36V AC/DC
Output Voltage (regulated)	12VDC @ 1000mA
Input connection	Terminal Block
Output connection	2.1mm DC Barrel plug
Total Cable length (inc converter)	approx 30cm (12")
Dimensions (LxWxH)	46 x 35 x 27mm 1 ⁵ / ₈ x 1 ³ / ₈ x 1 inch
Weight	82g / 3oz
Case type	Metal

Switching Power Adaptor (12VDC)

This switching power adaptor can be used to power any of your 12VDC cameras or other items.

- Switching Power Adaptor
- Input 110 -240 VAC
- Output 12VDC -1 Amp Max

Service Cable

The service cable is used for local set up of cameras during installation or service. Plug directly from a camera into a field monitor.

- 2.1mm Jack
- 41" in overall length
- BNC Output
- For use with the 44,51,53, 60 Series Domes

Push Pull Rods

The **Remote Alert** Push Pull Rods are handy, lightweight, flexible & STURDY! Use our Push-Pull Rods to get wire and cable into those “impossible” places quickly and easily! Ideal for pushing and pulling wire and cables in false ceilings, under floor channels, crawl spaces, attics and many other areas. Connect as many rods together to attain the length required.

These Push-Pull Rods will save you a lot of time and money. Tape your wire on to the leading rod and push it to the desired location by adding additional rods (they just screw into each other) or you can tape the wire to the rod (or hook it) and pull the wire to you from a distant location.

Each rod is made of aluminum alloy, 27” long and 3/4” O.D. and weighs only 5 oz. These rods are available in non-coated or coated sets which feature a 1000 V.D.C. dielectric strength coating, which is both tough and durable.

Each set comes with one curved handle pole and a bright yellow storage bag. Get a set today and make your installations go quicker and easier.

	Model	PPR Series
Coating	Coated Rods-C	1000 V.D.C Dielectric Strength
Physical	Construction	Aluminum Alloy
	Dimensions	27" L x 3/4 OD
	Weight	5oz per rod
Ordering	inPPROD20-C	20 Coated Rods -45ft
	inPPROD10-C	10 Coated Rods - 22-1/2ft
	inPPROD5-C	5 Coated Rods -11-1/4ft
	inPPROD20-P	20 Non-Coated Rods - 45ft
	inPPROD10-P	10 Non-Coated Rods - 22-1/2ft
	inPPROD5-P	5 Non-Coated Rods - 11-1/4ft

Tip

Attach a roll of tape to the wires. Catch the tape roll with the Push-Pull Rod and pull the wire while standing on the floor!

Be sure to pull down enough wire to span the distance to the next beam. This will avoid undue stress on your Push-Pull Rods.

Tip

When possible, join your rods ahead of time in groups of 3. This will make the job go a lot faster!

To push wire simply tape the wires to the end of the lead rod. Now push the wires to your desired location!

To pull wire simply make a hook from a wire clothes hanger and tape it to the end of the lead rod. Hook on to the wires and pull them wherever they need to go!

Why use ladders and scaffolding to pull wires over exposed beams? Do it quickly and easily from the floor!

Security installation! Push-Pull Rods are a real time saver when you need to pull those wires around the perimeter of a house or building!
